## PROFESSIONAL EXPERIENCE

### Cinestory Films

**01/10/18 - present**

Role – Lead Wedding Cinematographer

- Highlights Customer Service skills in order to communicate with clients effectively.
- Collaborate with a team of event photographers and videographers throughout the event.
- Demonstrates the ability to maneuver through spontaneous events not planned in the initial wedding timeline.

---

## PROJECTS

### Di Menu – MongoDB, Express, React, Nodejs, Redux

**11/2020 – 11/2020**

- Di Menu digitalizes Restaurant Paper Menus by generating a QR code for restaurants.
- Features include reusable components in React, Redux as state management and Node to create REST API.
- Full Stack application using a NOSQL database.
- Uses SCSS for stylesheet.

### Minimanote – React, Redux, React-Router, SCSS, Firebase

**09/2020 – 10/2020**

- Minimanote is a minimalistic note taking application.
- Includes User Authentication and or Google Log in.
- Extra features include a small text-editor which allows users to set headers images, checklists, and even their own code block.

### Covid-19 Tracker – React, SCSS, Covid19.API, ReCharts

**05/2020 – 05/2020**

- An application that was once vanilla JavaScript, refactored into a React project.
- Used ReCharts for Data Visualizations over a six-month span time with colorful graphs.
- Shows total confirmed cases, deaths, and recovered for 186 countries.

---
